WORK EXPERIENCE

Java Developer, Ypto

June 2025 - Present

- Java Developer for the Commercial Channels & Products team.
- Developing backend systems for train ticketing and subscription platforms using Java, Spring Boot, Maven, Git, JUnit, SonarQube, SQL and Jenkins.

Intern Software Developer, IMEC

March 2023 - June 2023

- Developed a scalable backend infrastructure using FastAPI, Python, and Docker. Optimized a critical function, making it more than 100% faster, significantly improving performance and efficiency.
 - Designed and implemented the frontend interface using Next.js and TailwindCSS.
 - Collaborated closely with team members to gather requirements, refine design specifications, and iterate on features throughout the development lifecycle.
-

PROJECTS

Shopping List

- Developed a collaborative shopping list and recipe app using Expo and React Native, with real-time synchronization via Firebase.
- Designed a microservice-based backend in Go, using Docker for deployment and bbolt for lightweight data persistence.
- Implemented CI/CD pipelines with GitHub Actions for automated builds and deployments, and built a custom prediction model for automatic item categorization.

Noted

- Developed Noted, an innovative note-taking app: Combined the best features of Notion and Obsidian, allowing users to write notes in a customizable block-style format.
- Built the application using Electron, React, and Editor.js to ensure a robust, responsive, and user-friendly interface.
- Developed the backend with FastAPI and Firebase, integrating GitHub Actions for CI/CD to automate testing and deployment.

Point Cloud Processor

- Co-developed Point Cloud Processor, an AI-powered desktop application as our final project for our degree.
 - Collaborated with a team of four to create an application using Python and PyQt5, leveraging RANSAC for detecting and extracting information about planes in point cloud data.
-

EDUCATION

Applied Computer Science (PBA)

Sep 2020 - June 2023

UC Leuven-Limburg

- Specialization in Software Development.
 - Graduated Cum Laude
-

ADDITIONAL INFORMATION

- **Technical Skills:** Java, Spring Boot, Maven, Docker, Git, SQL, Python, TypeScript, Go
- **Languages:** English, Dutch
